Wood Wanted.

Those indebted to the Oregon Republican
will confer a favor by furnishing us some
wood, which will be as good as cash to us.

The Dallas Literary Society has adjourned,
to meet again the first Thursday in October
next.

Mr. P. C. Sullivan has just returned from
Salem, where he has been tending Session of
the Circuit Court.

Mr. T. B. Newman has been replenishing
his stock of tinware. Call and see him—one
door south of the Post Office.

Young Nichols, who was injured last week
by the kick of a horse, is rapidly recovering.
No serious results are now apprehended from
the casualty.

To headquarters is always the place to go
for fresh supplies. G. B. Stiles is always ready
to supply the groceries and provisions which may
be needed by our citizens.

Mr. James Cooper, one of the party of gentlemen
mentioned some time ago as starting from
here on a trip to Eastern Oregon to prospect
for homes, has returned on account of ill
health. He left the party at the Des Chutes
river, all well.

The waters have subsided, so that we now
get our mails regularly. The weather, which
for two weeks has been very stormy, has become
more favorable, and the farmers are flattering
themselves that they will soon be able to
commence seeding.

We call attention to the new advertisement
of Messrs. Bolter, Wortley & Co., to be found
in another column. These gentlemen are determined
to keep a full assortment of such
goods as are demanded by our people, and to
sell at prices that will justify them in selling,
and others in buying.

In passing down Main Street, a person's
attention is attracted by a display of fancy
brillies, &c., hanging in front of S. C. Stiles'
harness shop; but friend, if you want anything
in his line, step inside, and you will see
that the "Squire" does not always "put the
best on the outside."

It is not to be inferred that because Messrs.
Hobart & Co. change their sign occasionally
that they spend any time in doing this that
should be devoted to business; for if anyone
will step inside their establishment, it will be
plainly seen that their stock is equal to the
demands of the market.

Parties have been busy all the week taking
depositions in the case of Della Lewis vs. D. F.
Lewis. The point at issue is the possession of
eighteen acres of land, claimed by defendant,
which she claims was done by mistake. Messrs.
Sullivan and McCain attorneys for plaintiff,
J. A. Applegate and C. G. Carl for defendant.

Messrs. N. & J. D. Lee are now receiving a
new supply of goods for spring trade. Always
on the alert to furnish the people with what
they want at reasonable prices, they will ever
be found ready to accommodate all who favor
them with a call with good goods at cheap
rates.

Again we have to remind our friends of the
fact that it is contrary to our positive rule to
publish communications without knowing from
what authority they come. Please bear this in
mind when writing articles to us for publication,
as we make it a rule not to publish anonymous
correspondence.

The question of organizing a Brass Band is
being agitated by some of our citizens. Those
interested in the matter would do well to
appoint a meeting to take the initiatory steps.
There is nothing more enlivening in a community
than a good band, and we see nothing to
hinder having a good one in Dallas.

We learn that our "artistic" friend Catterlin
is still taking impressions of the fair and
unfair, in the town of Independence. Also that
some parties (name unknown) have started a
Tin-shop in that place. We are always pleased
to hear of the prosperity of our neighbors, and
sincerely hope the above-named place may
continue to show her independence by a rapid
growth, whether she ever secures the honor of
being the county seat of Polk County or not.

description received, and is of excellent
quality. No price has yet been fixed.
Paris, March 20.—The situation is
unchanged. Fresh barricades have
been erected.
All traffic has ceased.
The Nationales have occupied Forts
Issy, Vaneres and Bicetre.
The Police Commissioners who arrested
Gen. Chanzy so maltreated him that he
had to be sent to the hospital. The
Commissioners subsequently signed the
release of Chanzy and Turguet
Cremer.
The approaches to Paris are guarded
preventing invasion.
Washington, March 20.—Attorney
General Chamberlin, of South Carolina,
has arrived here as the bearer of a letter
from Gov. Scott of that State, making a
formal request for troops and aid to
enforce the laws. Chamberlin says that
in some districts of that State it has become
impossible to enforce any civil process, and
the authorities are unable, by reason of
the Kuklux organization, to enforce the
laws. Gov. Scott requests a regiment
of cavalry, as, owing to the peculiar
manner in which the Kuklux operate
industry is as efficient as cavalry.
It is rumored that Morton will shortly
leave the Senate and perhaps take
Boutwell's place.
Secretary Fish has received the following
by cable:
"London, March 20.—Dispatch just
received by messengers from Minister
Washburn at Paris says that the National
Guards Committee is master of Paris.
The Department of the Interior of
Justice and Prefecture of Police are
occupied by the Insurgents. Gens
Vinoy, Thomas and Lecoupeur have
been murdered by the troops. The
election for Communes takes place to-
morrow. All members of the Thiers
Government have gone to Versailles.
I follow with the whole diplomatic
corps." "(Signed.) MORAN"
New York, March 20.—Ten thousand
and five hundred immigrants were landed
at Castle Garden, being the arrivals
of the last week. They were quarantined
on account of the small-pox.
Irish immigration is rapidly on the
decrease, while English arrivals are more
numerous. A very large French emigration
is expected this year, and Commissioners
are already making arrangements
to meet the wants of new comers.
London, March 17.—In the House
of Lords, to-night, Earl Carnarvon related
that of 300,000 barrels of powder
stored in the Government arsenals, all but
800 barrels were worthless, and that
the Government has been paying for
powder twice its cost in its own shops.
He deplored the apathy of the Government
at a time when the State of Europe
made war more than possible.
London, March 18.—A Times special
of Friday morning says that Mont-
martre Battalion 134 prevented Battalion
22 from taking a post on the ramparts,
because it was not devoted to the
Republic.
Napoleon has not arrived. The Em-
press is disappointed. It is supposed
that, owing to a mistake, the telegram
remains at Dover, waiting.
Paris, March 18.—The Government
is considering maritime and mercantile
law. The first questions treated are:
Excess of taxes on bonded goods and
revision of the navigation laws. It is
said the new loan is intended to convert
the loan of 250,000,000 francs, contracted
by the Tours Government but there will
be no demand for supplementary interest,
except from persons who avail themselves
of delays accorded by the new law.
London, March 21.—A Times special
says many were shot without trial on
Sunday.
The "Nationals threaten to shoot
Thiers, Vinoy and Aurelles, if captured.
There is a strong action against the
insurgents among respectable inhabitants.
The Red Central Committee is alarmed,
and seeks the mediation of the
Mayors for the appointment of Admiral
Saizett to the command of the Nation-
ales, and Versailles resembles a camp
strategically occupied.
The city is crowded with Deputies
who are sleeping in stables.
It is officially denied that France
has requested that prisoners in Germany
should return through Switzerland.
Napoleon arrived at Chislehurst at
two o'clock this afternoon.
Versailles, March 21.—Twenty thousand
troops are in the neighborhood of
the Chamber. The Assembly resolved
to appoint a Committee to consider the
state of France and put the Depart-
ments of the Seine and Oise in a state
of siege.

The Potato.

A curious conversation, the substance
of which we borrow from the Cosmos,
took place at the late sitting of the Societe
Central d'Agriculture on the history of
the potato. Marshal Vaillant stated that
he had found a treatise, dated 1749,
containing some very curious particu-
lars about that tuber, and that, consequently,
it was a mistake to say that
Parmentier had been the first to
introduce it into France, since all he
had done was to extend its cultivation.
M. Bousingault assented, and said that
Parmentier found potatoes in a field on
returning from the siege of Mayence. On
his return to France, he took great
pains to recommend their propagation
as an aliment. M. Huzard quoted the
pastoral of a bishop of the 17th century,
recommending the cultivation of the
potato to the whole of his diocese.
N. Pa. acknowledged that Parmentier
had no other merit but that of conquer-
ing the prejudices then existing against
its adoption as human food. Indeed the
article Pommes de terre in the "Grand
Encyclopedie" (1765) says the potato
is eaten by the peasantry in various
provinces, but that it is a coarse and
indigestible food. Such was the belief
at the time; and Parmentier succeeded
in destroying it by a curious stratagem.
Having sown a field with potatoes, he
had it guarded by gendarmes, giving out
that the plant he was rearing was a
rare and delicious exotic. When public
curiosity was sufficiently aroused, he
gradually neglected all precautions; so
the peasants of the neighborhood used
to go by night and steal a few tubers in
the field; their taste was found excellent,
and in a short time their cultivation
spread, and the rich people began to
have potatoes on their tables. This was
greatly owing to Parmentier's activity
in bringing his favorite plant into honor.
One day he presented himself at
Louis XVI's Court with the simple flower
solanum tuberosum stuck in his button-
hole. The King asked him what it
was, and received thereupon all the
desirable information, which he found
so valuable that he immediately intro-
duced the cultivation of the potato into
his own dominions. The courtiers, of
course, imitated his Majesty's example,
and thus the neglected plant rose into
high esteem. In Germany, the potato
was introduced about 1710, but only as
a curiosity, in private gardens; it spread
very slowly, and it was not until the
famine of 1771-1772 that its use be-
came general.—Galignani's Messenger.

Fragrance the most lasting!

Bills, Pustules, Blotches and Humor
are all evidence of bad blood, and no matter
what medicines are taken, if they do not purify
the blood they cannot cure the disease. Bristol's
Sarsaparilla is the safest, and surest, and
the best of all blood purifiers, it has been tried
over 35 years, and always successfully. A few
doses of Bristol's Sugar-coated Pills, taken at
same time, will greatly hasten a cure.

Don't think because snuff and strong or
poisonous solutions will not cure Catarrh, that
you cannot be cured. The proprietor of Dr.
Sage's Catarrh Remedy offers \$500 reward for
a case of Catarrh which he cannot cure. It
costs but 50 cents for a package which prepares
one full pint. Sold by druggists, or send 60 cents
to Dr. R. V. Pierce 133 Seneca street, Buffalo, N.
Y., and get it through the mail. A pamphlet
free. The Genuine has Dr. Pierce's private
U. S. Government Stamp on each package.

Same as last! "For five years" writes a
gentleman at Harrisburg, Pa., "I was on a
wild goose chase after remedies for dyspepsia
I have taken first and last enough "infallible
cures" to float a jolly boat, and the more I
swallowed the faster I got no better. Luckily
or rather providentially, it came into my head
to try Dr. WALKER'S VEGETABLE VINEGAR BIT-
TERS. This was about five months ago. In less
than six weeks not a twinge remained to remind
me of the complaint. I am perfectly well, and
have only one regret—that I did not discover
or the true specific sooner.

The Great Medical Discovery!
DR. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands
Bear testimony to their Wonder-
ful Curative Effects.
WHAT ARE THEY?

THEY ARE NOT A VILE
FANCY DRINK.
Made of Pure Rye, Whiskey, Proof
Spirit, and Refined Licorice, doctored with
an excellent blend of the taste, called "Ton-
ics," "Appetizers," "Restorers," &c., that lead
the tippler on to drunkenness and ruin, but are
the best of California, free from all Alcoholic
Stimulants. There are the GREAT BLOOD
PURIFIER and LIFE GIVING PRIN-
CIPLE, a perfect Renovator and Invigorator
of the System, carrying off all poisonous matter
and restoring the blood to a healthy condition.
No person can take these Bitters according to di-
rection and remain long unwell.

FOR INFAMOUS and Chronic Rheu-
matism and Gout, Dyspepsia or Indi-
gestion, Bilious, Constipated and Inter-
mittent Fevers, Diseases of the Blood,
Liver, Kidneys, and Bladder, these Bitters
have been most successful. Such Dis-
eases are caused by Vitrated Blood, which
is generally produced by derangement of the
Digestive Organs.

HEADACHE, Pain in the Shoulders, Coughs, Tight-
ness of the Chest, Blisters, Swellings of the
Stomach, Bad taste in the Mouth, Bilious At-
tacks, Palpitation of the Heart, Inflammation of
the Lungs, Pain in the regions of the Kidneys, and
a hundred other painful symptoms, are the off-
spring of Dyspepsia.
They invigorate the Stomach and stimulate the
torpid liver and bowels, which render them of un-
equalled efficacy in cleansing the blood of all
impurities, and imparting new life and vigor to
the whole system.

FOR SKIN DISEASES, Eruptions, Tetter,
Salt Rheum, Blotches, Spots, Itchings, Pustules,
Boils, Carbuncles, Ring-Worms, Scald-Head, Sore
Eyes, Nymphs, Itch, Scars, Discolorations of
the Skin, Humors and Diseases of the Skin, of
whatever name or nature, are literally dug up
and carried out of the system in a short time by
the use of these Bitters. One bottle in such
cases will convince the most incredulous of their
curative effects.

Cleanse the Vitrated Blood whenever you find
its impurities bursting through the skin in Pimp-
les, Eruptions or Sores; cleanse it when you
feel it obstructed and sluggish in the veins;
cleanse it when it is foul, and your feelings will
tell you when. Keep the blood pure and the
health of the system will follow.

PIN-TAPE and other WORMS, lurking in
the system of so many thousands, are effectually
destroyed and removed. For full directions, read
carefully the circular around each bottle.
